

**Beverage concepts up to everything: AUSTRIA JUICE at the GULFOOD Manufacturing 2019**

At the upcoming Gulfood Manufacturing in Dubai, which is MENA's premier Food Processing and Packaging Technology and Ingredients exhibition, we are presenting a selected portfolio of innovative beverage and flavour concepts.

From sparkling fruit juice drinks and innovative energy drinks to still drinks with extraordinary flavour combinations - AUSTRIA JUICE offers professional business-to-business solutions for numerous applications in the food and beverage sector, leaving nothing to be desired.

- **The comprehensive exhibition portfolio is in line with current trends such as "Value of the simple" and "Stay in Balance":**

Today's consumer is looking for simple products with short ingredient lists, natural ingredients, local fruits and pure taste. At the same time, products that support body awareness are in high demand. Both products that are positive for an inner balance and functional sports drinks are popular.

**Visit us at the Gulfood Manufacturing 2019 and see for yourself the broad portfolio of Austria Juice!**
